#ACTION NOTWORDS

ON THE KEY QUESTIONS FACING OUR UNION THIS IS WHERE WE STAND:

- Our number one priority during the pandemic is the safety of our members and the public. Working from home must continue, exceptions only with union agreement. Mental health, well-being and stress levels must be urgently addressed.
- Homeworking should be extended to improve work/life balance not as a way of closing offices and cutting local services.
- With inflation at record levels a national campaign is needed to secure a 12% pay increase, stop the attacks on our pensions, jobs & services and ensure a fully resourced safe working environment both now and in the future.
- We are opposed to the current leadership's record of selling conditions for pay.
- We oppose privatisation of our services and the further extension of shared services. Return out-sourced work to the public sector, protect jobs and conditions.
- We need a strong political voice. We should only support political candidates who are anti-austerity and support the interests of our members and our policies.
- We believe changes to the structure of our union must extend democratic membership control not increase bureaucratic centralisation. Branch and Group structures are under threat - any changes must be only with the full consent of those affected.

About the Broad Left Network

The Broad Left Network is a group within PCS made up of members and activists right across the union, including commercial services/outsourced workers, and from all parts of the UK. We are socialists united around a programme of change, committed to reclaiming the union for members and to building a serious campaign, together with other like minded unions, to reverse the erosion of our pay and conditions.

MARION LLOYD

“ This has been a year when again we've had to fight for our lives and livelihoods. Regrettably, it has also again been a year when on too many occasions the current leadership has failed us. The work that reps and members have undertaken to protect our safety is inspirational. It is this that gives me the confidence that under a new leadership, with a fresh approach, PCS can regain its fighting culture and win for members. ”
